

Matching Specific Characters

[]

The character class `[]` matches only one out of several characters placed inside the square brackets.

In the above image, the Regex Pattern is matched with the Test String.

Task

You have a test string S .

Your task is to write a regex that will match S with following conditions:

- S must be of length: `6`
- First character: `1`, `2` or `3`
- Second character: `1`, `2` or `0`
- Third character: `x`, `s` or `0`
- Fourth character: `3`, `0`, `A` or `a`
- Fifth character: `x`, `s` or `u`
- Sixth character: `.` or `,`

Note

This is a regex only challenge. You are not required to write any code.

You have to fill the regex pattern in the blank ().
